

BECOME PART OF THE ON-FARM NETWORK

on-farm network
PARTICIPATORY • PRECISE • PROACTIVE

By farmers, for farmers

All On-Farm Network (OFN) research is based on these important principles:

1. **Participatory** – Actively engages farmers in the research process.
2. **Precise** – OFN trials produce robust and statistically sound data.
3. **Proactive** – Results from the OFN guide management decisions, aiming to improve productivity and profitability of the farm operation.

HOW IT WORKS

*Your fields, your farm, your findings** YOU

- Let us know what kind of trial you are interested in or what kind of agronomy question you have.
- Tell us when you are ready to establish your trial (e.g., at seeding or spraying, depending on trial type) and provide us with basic agronomic information for the field.
- Tell us when you are ready to harvest.
- Use the results to guide future management decisions for your farm.

WE

- Design an easy-to-implement trial to investigate your question.
- Provide support to ensure smooth trial establishment.
- Collect data and observations throughout the season.
- Provide harvest support and our weigh wagon, to get accurate harvest results (or you can use your grain cart if it has an appropriate scale).
- Compile the observations and data into a short report of trial results.

* You must be a member in good standing with MPSG to participate.

WHAT IT DOES FOR YOU

Farm productivity and profitability, optimized

- The OFN empowers you to evaluate agronomic and economic outcomes of management decisions on your farm, in your fields, under your growing season conditions, using your own equipment.
- As a participant, you become a part of a larger network of research across years and regions, which can be used to investigate bigger picture questions.

2022

■ PULSE AND SOYBEAN TRIAL TOPICS

- | | |
|------------------|------------------------|
| ▪ Seeding rate | ▪ Biologicals |
| ▪ Row spacing | ▪ Dry bean N fertility |
| ▪ Inoculants | ▪ Residue management |
| ▪ Seed treatment | |
| ▪ Fungicides | |

Have a different trial idea? Let us know!
