-- Control. S - Suppression. TG - Top growth control. ✓ - Control/suppression based on field trials.

¹ Will not control CLEARFIELD varieties.

² For in-season activity only, must be activated prior to weed emergence.

³ For control of the marked weeds when emerging from seed (not controlled if emerged at application).

⁴ Seed at least 1.5 inches (4 cm) deep.

⁵ Not labelled for control in peas with MPOWER Ninja.

⁶ Will not control glyphosate-tolerant varieties.
