-- Control. S - Suppression. TG - Top growth control. ✓ - Control/suppression based on field trials.

<sup>1</sup> Will not control CLEARFIELD varieties.

<sup>2</sup> For in-season activity only, must be activated prior to weed emergence.

<sup>3</sup> For control of the marked weeds when emerging from seed (not controlled if emerged at application).

<sup>4</sup> Will not control glyphosate-tolerant varieties.

Refer to respective product labels for the most up-to-date information.
